

IMPIANTI NAVALI, CIVILI E INDUSTRIALI

# Company Presentation

**D&L Impianti** is an Italian company dealing with installation, maintenance, refit and supply of electric equipment for naval, industrial and civil electrical systems.

Thanks to many years of collaboration with leading companies, **D&L Impianti** has been able to obtain a well grounded experience and a wide skill range in this field. This allowed the company to achieve a high quality standard to better satisfy all customers' needs.

**D&L Impianti** also took part in important projects and shared the management of various activities, showing the ability to conceive innovative solutions in problem solving.

The gained know-how made **D&L Impianti** a valid and trustworthy business partner.

#### **The offered services are:**

- High quality installations
- Supply of electric and LED lighting equipment
- Technical consulting
- Basic design of electrical systems

The **D&L Impianti** main goal is to meet all the possible requests, assuring a customized solution, through the use of the latest and most efficient technologies, in order to offer a ready to work system.

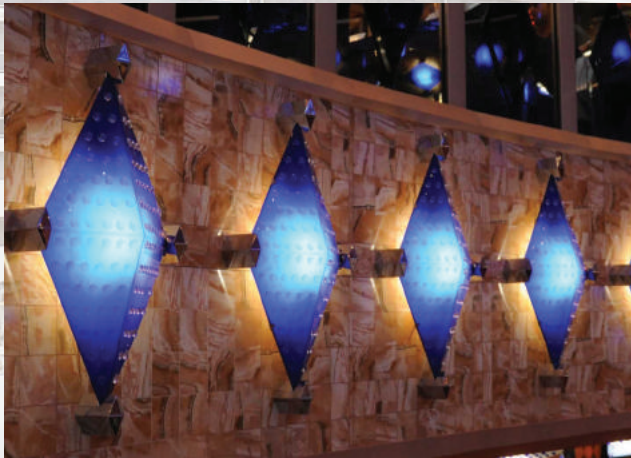

# Goal and Services

Systems design and installation is one of the main activities of **D&L Impianti**. Thanks to the implementation of electrical systems, power systems, lighting systems, control and protection cabinets, distribution system and cable routing.

The huge experience and the use of the best equipment available on the market assure high-quality installations: the systems are safe, functional, accessible and to 46/90 law conformed.

**D&L Impianti** also guarantees the pleasant appearance of the installation along with a low blackout risk.

# D&L Impianti

**D&L Impianti** designs and sets up naval, industrial and civil electrical systems.

One of the company's main activity is the planning and the implementation of control and electrical cabinets, along with the provision of Uninterruptible Power Source (UPS) and High voltage or Low voltage power supplies. D&L Impianti also offers:

- Switchboards and main switchboards' wiring and installation;
- Small, medium and large sized systems' installation;
- Cable Routing and Laying;
- Indoor and outdoor lighting systems, through the installation of Strip LED, LED tubes, LED Panels and LED light bulbs;
- Internal phone, intercom, TV antenna and acoustic systems' installation;
- Recessed or surface mounted lighting systems;
- Circuit-breaker, lightning protection and grounding systems;
- Centralized air-conditioning systems for flats or buildings.

The company works both in the public and the private sphere, providing its services to buildings, hospitals, shops, accommodation facilities, offices, shopping centers, business districts and private houses.

The company also cooperates on the design and the installation of industrial automation plants.

Regarding the industrial field, in addition to ex novo installations, **D&L Impianti** carries out makeovers, improvements and upgrades, routine and emergency maintenance of the electrical systems and provides the related Certification and the Declaration of Conformity. All the technical interventions always occur in compliance with the current CEE regulations.

**D&L Impianti** puts effort into the realization of each project, so that it could better meet the customer's requirements. The company offers ad hoc solutions, able to optimize the dimensions of the system according to the specific needs, paying attention to safety and final performance.

During the last years **D&L Impianti** has been able to improve its ability to create a huge variety of DATA SYSTEMS.

The company's staff handles connection and certification of Networking Systems (based on Copper - Cat5e, Cat6, Cat6A or Optical Fiber - MM, SM), using high quality instruments of well-known brands, such as Fujikura, Fluke, Jdsu.

# Company's Strengths

- **COMMUNICATION**

D&L Impianti cares about each phase of the complex relationship between customer and supplier, using the best resources to fulfill the customer's requirements.

- **FLEXIBILITY**

Each installation is different from another and it is always designed to be suitable for a wide range of situations. The company suggests the best solution to guarantee the greatest performance, keeping an eye on energy efficiency.

- **QUALITY AND SAFETY**

D&L Impianti is proud of the long-lasting quality and the high level of safety reached by its installations.

- **CUSTOMER CARE**

The customer is assisted by the company from the starting project to the post-sale support and can always rely on the helpfulness of D&L Impianti team.
